REF: Encl. 4 to EGBA-18168, dated 29 Oct 54

We note from Reference that [] is has now assumed the CARBONHYDRATE contact for purposes of CADORY security. While we assume that this has been done to increase control and efficiency in handling Project CADORY, it was our belief that [] had originally taken over CARBONHYDRATE from his CANT case officer in order to simplify handling procedures and to increase control by placing all CADORY matters in the hands of one case officer. We would appreciate receiving your reasons for making this change and advice on the following: Will CARBONHYDRATE/CASTANIA matters be handled by [] Are joint meetings with both [] and CARBONHYDRATE still to be held; if so, will both case officers attend? Generally speaking, will [] have any further contact with CARBONHYDRATE, or will CARBONHYDRATE be handled exclusively by []
